

Continuing from item 4 from last week's agenda.

1. Figure out clubs and course union day.
 - Wednesday 14th September second week of school
 - The telescope has been ordered and is expected to take 15 business days to ship.

 - Plot a large format picture of the telescope in the event that it doesn't arrive on time so we have some booth candy to show off.
 - The DRAO may have an 8" telescope in storage.
 - Borrow for the day?
 - Will our solar filter arrive in time? Will it fit the other telescope?

 - Umbrella to shade any electronics and telescope as necessary.
 - Gazebo/tent to borrow for the day.
 - Ask ESS about borrowing a gazebo with their brand on it.
 - Contact Montana for an in.

 - Julian Cheng contact for access to IEEE branded stationary and swag.
 - Emily sent an email.
 - Miguel has agreed to spearhead acquisition of stationary.
 - Laser pointers?

 - Emily has emailed Curtis at the SUO to register for course union day.

2. Brainstorming the MARS acronyms
 -
3. Miguel will be going to Toronto to attend the IEEE conference.
 -
